

Get TESTED!

*Get your soil tested and make sure
it's safe for your friends and family.*

Have your yard tested for FREE!

U.S. Environmental Protection Agency
representatives will be going door to
door in your neighborhood to help you
find out if your soil is contaminated with

lead. High levels of lead in soil can cause various health problems, so
it is important that you find out if your soil contains lead. The testing is
free and if your yard is found to be contaminated, EPA will clean up your
yard at no cost to you.

EPA wants to sample your yard to find out if it is contaminated. All you
need to do is sign an access agreement to allow EPA to take samples.

There is no cost to you!

We will be in the area:

Saturdays - Nov. 14 and 21 from 10 a.m to 3 p.m.

We also have staff available in our local field office from 11 a.m. to 6 p.m. on
Tuesdays and Wednesdays to get access agreements. Please stop by!

SulTRAC
1015 E. 149th St.
East Chicago

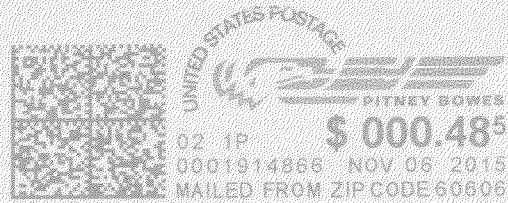

SulTRAC is a contractor working with EPA at this site.

If you have questions or concerns about the USS Lead Superfund
Site, please contact Janet Pope toll-free at 800-621-8431, Ext. 30628,
weekdays 8:30 a.m. - 4:30 p.m. or at pope.janet@epa.gov.
